*This website created for shopping
the some shoe and the user can
costum their own shoe and the
user can be add the blockchain
payment in payment*

WEBSITE INTRODUCTION

This website is built using HTML, CSS, and JavaScript as well as implementing AJAX and PHP as communication between the client and server. For the server, we use phpmyadmin with Idwebhost as our website hosting.

We also use the MapBox API with Json to implement the map search feature.

Home page

Home page it's a starting page user want to do, like add to cart

Check cart, search shoe and in the cart actually the user cant be modify the cart, remove the cart and make asc and desc the cart

Afer that, if user want to costum their own just click 'costum your shoe!' and will be directly to costume shoe pager

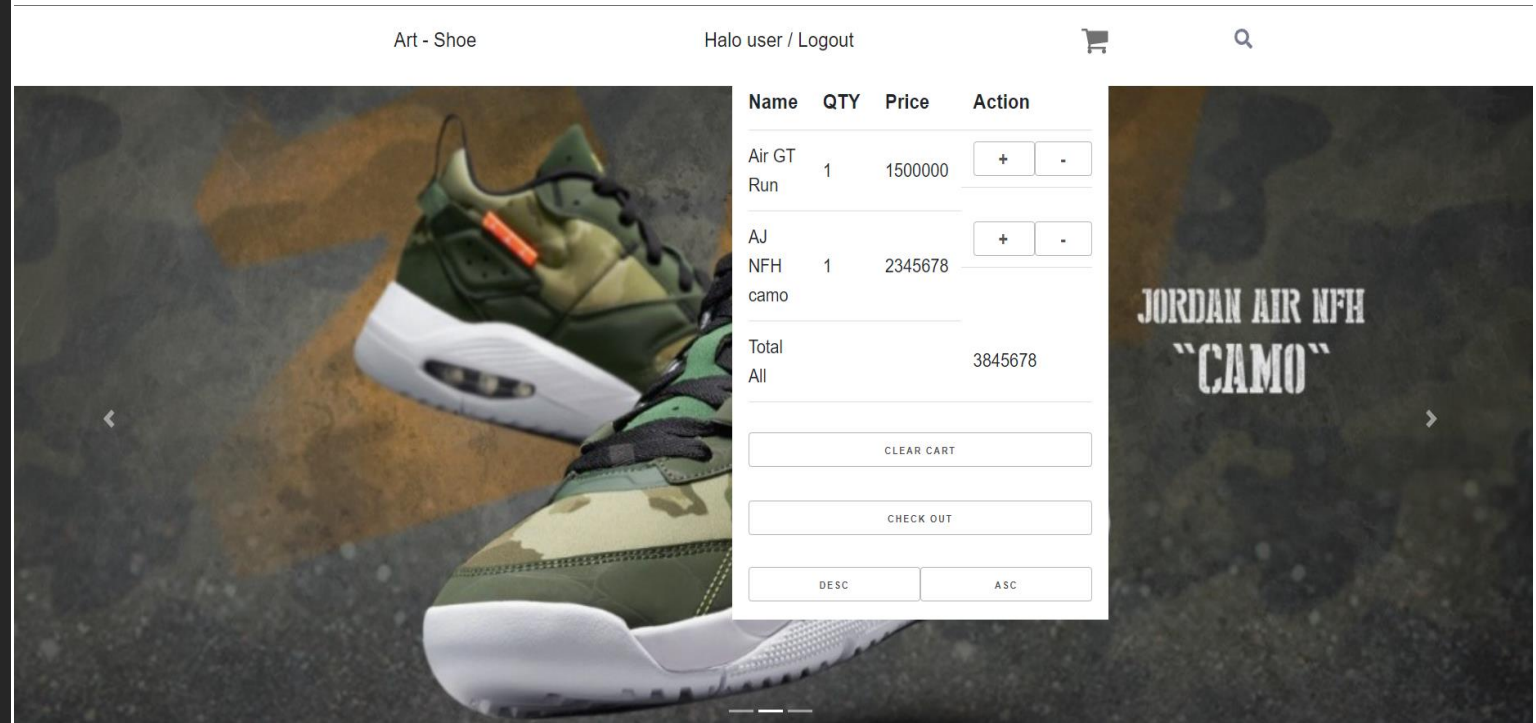

Our product or Costum Your Shoe !

 <p>Air GT Run Good shoes ★★★★☆ 1500000 ADD TO CART delete</p>	 <p>AJ NFH camo Camo colour ★★★★☆ 2345678 ADD TO CART delete</p>	 <p>AJ kyire 8 infinity rare ★★★★☆ 2000000 ADD TO CART delete</p>	 <p>Air jordan 3 Good shoes ★★★★☆ 3000000 ADD TO CART delete</p>
---	---	--	---

Home page

Its still main page but is it function for buyer or user if want to delete cart, logout search something or some shoe and make the lower to higher price or the higher to lower or usually we call asc desc

Cosutume shoe page

This the page for costume the shoe if all anything filled like name, price and etc filled then the shoe will be show in main page

If you want to custom shoee, lets fill

name :	<input type="text" value="air jordan 3"/>
price :	<input type="text" value="3000000"/>
description :	<input type="text" value="Good shoes"/>
File :	<input type="button" value="Choose File"/> DC9134_400.jpg
<input type="button" value="Add Product !"/>	

Shipping and payment page
